

Google Authenticator

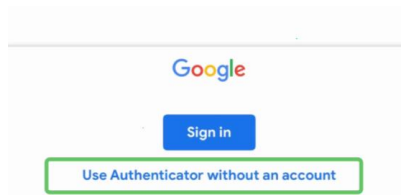

Download/Open – from App Store (iPhone) or Google Play (Android)

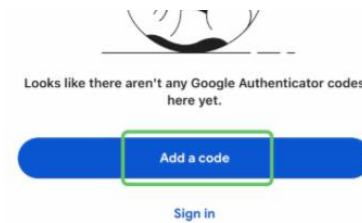

Step 1 – Click on “Get Started” prompts.

Step 2 – Sign in with your account or continue using the Authenticator without an account.

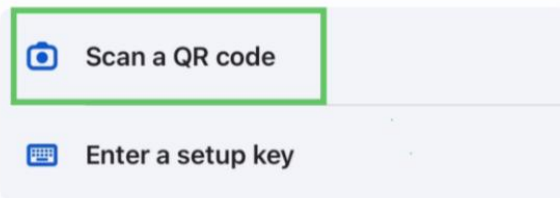

Step 3 – Click ‘Add a code’

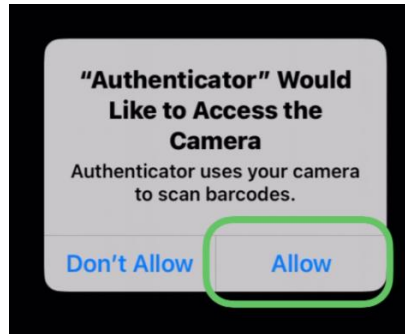

Step 4 – Select ‘Scan a QR code’. If that doesn’t work, choose ‘Enter a setup key’.

To begin, either scan the QR code or manually enter the setup key.

Step 5 – A pop-up will appear asking the Authenticator app to use your camera. Select ‘Allow’.

Step 6 – A QR code will appear on 1Chart. Use your Authenticator app to scan it and finish setting up MFA.

Step 7 - These passcodes change every 30 seconds. **Do not share your code with anyone.**
